

Proclamation of the Freedom Front

- Aware that the politics which led the wars of the 1990s, now assisted by the European Union, escalates day in and out the impoverishment and instability of the region, promoting ethnic division and racial discrimination, whilst continuing to plunder public good;
- Prevailing in the struggle against the terror of the politics of inequality carried out by politico-clerical forces, supported by mafia capital, who manage the lives of all people in the countries of former SFRJ;
- Committed to fight in unity in the name of equality for all, not as victims of nationalist politics or as promoters of opportunist individual interests;
- Opposed to the politics of revisionism which, unpunished, continues to execute the final stage of genocide, as in recent statements by Milorad Dodik on the massacre at Kapija in Tuzla, the sentencing of Ilija Jurišić; or the rehabilitation of the racist forces behind the Holocaust and the recent genocide;
- Provoked by the politics of inequality, being enacted by the European Union, that further ghettoizes Bosnia and Herzegovina and Kosovo via the visa regime whilst at the same time commends and awards an open display of powerlessness before the attack of ever-stronger militant racist forces, as proven in recent events in Serbia;

We proclaim The Freedom Front Declaration

1. Freedom Front unites all free people who fight in all legitimate and proven ways for freedom and equality and against aggressive, repressive, and racist politics of non-state, state, and international organisations and power structures.
2. Freedom Front stands in solidarity with the disenfranchised and the impoverished to gain freedom, justice, and equality.
3. Freedom Front develops resistance to all forms of repression and violence and is committed to widening the space of freedom for a more just and equally just future for all.
4. Freedom Front calls on all who share these aims collectively to undertake concrete local and international actions in all aspects of everyday life.
5. Freedom Front stands firm, in the struggle against fascism, upholding the right and the obligation to fire back when fired upon!
